Senator Farnsworth moved to amend S.F. No. 1832 as follows (A64):

Page 98, after line 25, insert:

"Sec. 6. **IRON ORE MINING ADDITIONAL UNEMPLOYMENT BENEFITS PROGRAM.**

Subdivision 1. **Availability of additional benefits.** Additional unemployment benefits are available from the Minnesota unemployment insurance trust fund to an applicant who was laid off due to lack of work on or after March 15, 2025, and before June 16, 2025, from:

(1) an employer in the iron ore mining industry that laid off 40 percent or more of the employer's workforce on or after March 15, 2025, and before June 16, 2025; or

(2) an employer that is in the explosive manufacturing industry providing goods or services to an employer in the iron ore mining industry if the applicant was laid off due to the cessation or substantial reduction in operations of an employer in the iron ore mining industry as described in clause (1).

Subd. 2. **Eligibility requirements.** An applicant is eligible to receive additional unemployment benefits under this section for any week through the week ending June 19, 2026, if:

(1) the applicant established a benefit account under Minnesota Statutes, section 268.07, with 50 percent or greater of the wage credits from an employer as described in subdivision 1, and has exhausted the maximum amount of regular unemployment benefits available on that benefit account; and

(2) the applicant meets the same requirements that an applicant for regular unemployment benefits must meet under Minnesota Statutes, section 268.069, subdivision 1.

Subd. 3. **Weekly and maximum amount of additional unemployment benefits.** (a) The weekly benefit amount of additional unemployment benefits is the same as the weekly benefit amount of regular unemployment benefits on the benefit account established in subdivision 2, clause (1).

(b) The maximum amount of additional unemployment benefits available to an applicant under this section is an amount equal to 26 weeks of payment at the applicant's weekly additional unemployment benefit amount.

(c) If an applicant qualifies for a new regular benefit account that meets the requirements of subdivision 4, paragraph (b), before the applicant has been paid additional unemployment benefits, and the new regular benefit account meets the requirements of subdivision 2, clause (1), the applicant's weekly additional unemployment benefit amount is equal to the weekly unemployment benefit amount on the applicant's new regular benefit account.

Subd. 4. **Qualifying for a new regular benefit account.** (a) If, after exhausting the maximum amount of regular unemployment benefits available as a result of the layoff under subdivision 1, an applicant qualifies for the new regular benefit account under Minnesota Statutes, section 268.07, the applicant must apply for and establish the new regular benefit account.

(b) If the applicant's weekly benefit amount under the new regular benefit account is equal to or higher than the applicant's weekly additional unemployment benefit amount, the applicant must request unemployment benefits under the new regular benefit account. An applicant is ineligible for additional unemployment benefits under this section until the applicant has exhausted the maximum amount of unemployment benefits available on the new regular benefit account.

(c) If the applicant's weekly unemployment benefit amount on the new regular benefit account is less than the applicant's weekly benefit amount of additional unemployment benefits, the applicant must request additional unemployment benefits. An applicant is ineligible for new regular unemployment benefits until the applicant has exhausted the maximum amount of additional unemployment benefits available under this section.

Subd. 5. **Eligibility for federal Trade Readjustment Allowance benefits.** An applicant who has applied and been determined eligible for federal Trade Readjustment Allowance benefits is not eligible for additional unemployment benefits under this section.

EFFECTIVE DATE. This section is effective retroactively from March 15, 2025."

Amend the title accordingly

The motion prevailed. So the amendment was adopted.

Senator Housley moved to amend S.F. No. 1832 as follows (A86):

Page 85, after line 10, insert:

"Sec. 16. **MINNESOTA PAID LEAVE DAY ONE CALL CENTER OPERATIONS.**

The commissioner of employment and economic development must ensure that call center operations for the Minnesota paid leave program are fully operational on January 1, 2026, to provide customer service on day one of implementation of the program.

EFFECTIVE DATE. This section is effective the day following final enactment."

Renumber the sections in sequence and correct the internal references

Amend the title accordingly

Senator Pappas questioned whether the amendment was germane.

The President ruled that the amendment was not germane.

Senator Rasmusson appealed the decision of the President.

The question was taken on "Shall the decision of the President be the judgment of the Senate?"

The roll was called, and there were yeas 34 and nays 32, as follows:

Page 54, after line 12, insert:

"Sec. 2. Minnesota Statutes 2024, section 116J.682, subdivision 2, is amended to read:

Subd. 2. **Establishment.** The commissioner shall establish the small business assistance partnerships program to make grants to local and regional community-based organizations to provide small business development and technical assistance services to entrepreneurs and small business owners, and to revitalize or strengthen downtown and neighborhood commercial districts.

Sec. 3. Minnesota Statutes 2024, section 116J.682, subdivision 3, is amended to read:

Subd. 3. **Small business assistance partnerships grants.** (a) The commissioner shall make small business assistance partnerships grants to local and regional community-based organizations to provide small business development and technical assistance services to entrepreneurs and small business owners, or to revitalize or strengthen a downtown or neighborhood commercial district. The commissioner must prioritize applications that provide services to underserved populations and geographies.

(b) Grantees shall use the grant funds to provide high-quality, free professional business development and technical assistance services that support the start-up, growth, and success of Minnesota's entrepreneurs and small business owners.

(c) Grantees may use up to 15 percent of grant funds for expenses incurred while administering the grant, including but not limited to expenses related to technology, utilities, legal services, training, accounting, insurance, financial management, benefits, reporting, servicing of loans, and audits."

Renumber the sections in sequence and correct the internal references

Pursuant to Rule 40, Senator Westlin cast the negative vote on behalf of the following Senators: Boldon, Johnson Stewart, Marty, Port, and Xiong.

The motion did not prevail. So the amendment was not adopted.

Senator Pratt moved to amend S.F. No. 1832 as follows (A80):

Page 57, after line 22, insert:

"Sec. 7. Minnesota Statutes 2024, section 116L.20, is amended by adding a subdivision to read:

Subd. 3. **Employer workforce training refunds.** (a) An employer subject to the requirements of subdivision 1 that employs 100 or fewer employees may annually request from the commissioner a refund of the special assessment amounts that the employer paid into the workforce development fund. Money refunded under this subdivision must be used for employee training as provided under paragraph (b). The amounts necessary to provide the refunds under this paragraph are annually appropriated to the commissioner.

(b) Training provided by an employer funded by the refund allowed under this subdivision:

(1) must be used to upskill current entry-level employees or for training that leads to an increased salary or increased opportunities for career advancement with the employer; and

(2) must only be used to train Minnesota employees.

(c) By January 15, 2026, and each January 15 thereafter, the commissioner must submit a report to the chairs and ranking minority members of the senate and house of representatives committees with jurisdiction over workforce development providing the following information:

(1) the current balance in the workforce development fund; and

(2) for the previous calendar year:

(i) the total amount of special assessments collected; and

(ii) the total amount of money refunded to employers under this subdivision.

EFFECTIVE DATE. This section is effective July 1, 2025."

"ARTICLE 11

EARNED SICK AND SAGE TIME MODIFICATIONS

Section 1. Minnesota Statutes 2024, section 181.9445, subdivision 6, is amended to read:

Subd. 6. **Employer.** "Employer" means a person who has ~~one~~ 15 or more employees. Employer includes an individual, a corporation, a partnership, an association, a business trust, a nonprofit organization, a group of persons, the state of Minnesota, a county, town, city, school district, or other governmental subdivision. In the case of an employee leasing company or professional employer organization, the taxpaying employer, as described in section 268.046, subdivision 1, remains the employer. In the case of an individual provider within the meaning of section 256B.0711, subdivision 1, paragraph (d), the employer includes any participant within the meaning of section 256B.0711, subdivision 1, paragraph (e), or participant's representative within the meaning of section 256B.0711, subdivision 1, paragraph (f). In the event that a temporary employee is supplied by a staffing agency, absent a contractual agreement stating otherwise, that individual shall be an employee of the staffing agency for all purposes of section 177.50 and sections 181.9445 to 181.9448. Employer does not include the United States government.

Sec. 2. Minnesota Statutes 2024, section 181.9446, is amended to read:

181.9446 ACCRUAL OF EARNED SICK AND SAFE TIME.

(a) An employee accrues a minimum of one hour of earned sick and safe time for every 30 hours worked up to a maximum of 48 hours of earned sick and safe time in a year. Employees may not accrue more than 48 hours of earned sick and safe time in a year unless the employer agrees to a higher amount.

(b)(1) Except as provided in clause (2), employers must permit an employee to carry over accrued but unused sick and safe time into the following year. The total amount of accrued but unused earned sick and safe time for an employee must not exceed 80 hours at any time, unless an employer agrees to a higher amount.

(2) In lieu of permitting the carryover of accrued but unused sick and safe time into the following year as provided under clause (1), an employer may provide an employee with earned sick and safe time for the year that meets or exceeds the requirements of this section that is available for the employee's immediate use at the beginning of the subsequent year as follows: (i) 48 hours, if an

employer pays an employee for accrued but unused sick and safe time at the end of a year at the same base rate as an employee earns from employment and in no case at a rate less than that provided under section 177.24 or an applicable local minimum wage; ~~or~~ (ii) 80 hours, if an employer does not pay an employee for accrued but unused sick and safe time at the end of a year; or (iii) upon initial employment, an employer providing sick and safe time under item (i) or (ii) may prorate sick and safe time amounts for an employee based on full- or part-time work for the remainder of that year.

(c) Employees who are exempt from overtime requirements under United States Code, title 29, section 213(a)(1), as amended through January 1, 2024, are deemed to work 40 hours in each workweek for purposes of accruing earned sick and safe time, except that an employee whose normal workweek is less than 40 hours will accrue earned sick and safe time based on the normal workweek.

(d) Earned sick and safe time under this section begins to accrue at the commencement of employment of the employee.

(e) Employees may use earned sick and safe time as it is accrued.

Sec. 3. Minnesota Statutes 2024, section 181.9447, subdivision 2, is amended to read:

Subd. 2. **Notice.** An employer may require notice of the need for use of earned sick and safe time as provided in this paragraph. If the need for use is foreseeable, an employer may require advance notice of the intention to use earned sick and safe time but must not require more than seven days' advance notice. If the need is unforeseeable, an employer may require an employee to give notice of the need for earned sick and safe time as ~~soon as practicable~~ reasonably required by the employer. An employer that requires notice of the need to use earned sick and safe time in accordance with this subdivision shall have a written policy containing reasonable procedures for employees to provide notice of the need to use earned sick and safe time, and shall provide a written copy of such policy to employees. If a copy of the written policy has not been provided to an employee, an employer shall not deny the use of earned sick and safe time to the employee on that basis.

Sec. 4. Minnesota Statutes 2024, section 181.9447, subdivision 3, is amended to read:

Subd. 3. **Documentation.** (a) When an employee uses earned sick and safe time for more than ~~three~~ two consecutive scheduled work days, an employer may require reasonable documentation that the earned sick and safe time is covered by subdivision 1.

(b) For earned sick and safe time under subdivision 1, clauses (1), (2), (5), and (6), reasonable documentation may include a signed statement by a health care professional indicating the need for use of earned sick and safe time. However, if the employee or employee's family member did not receive services from a health care professional, or if documentation cannot be obtained from a health care professional in a reasonable time or without added expense, then reasonable documentation for the purposes of this paragraph may include a written statement from the employee indicating that the employee is using or used earned sick and safe time for a qualifying purpose covered by subdivision 1, clause (1), (2), (5), or (6). The employer may require documentation at such time that reasonable documentation is available if it is not available in a reasonable amount of time initially.

(c) For earned sick and safe time under subdivision 1, clause (3), an employer must accept a court record or documentation signed by a volunteer or employee of a victims services organization,

an attorney, a police officer, or an antiviolence counselor as reasonable documentation. If documentation cannot be obtained in a reasonable time or without added expense, then reasonable documentation for the purposes of this paragraph may include a written statement from the employee indicating that the employee is using or used earned sick and safe time for a qualifying purpose covered under subdivision 1, clause (3).

(d) For earned sick and safe time to care for a family member under subdivision 1, clause (4), an employer must accept as reasonable documentation a written statement from the employee indicating that the employee is using or used earned sick and safe time for a qualifying purpose as reasonable documentation.

(e) An employer must not require disclosure of details relating to domestic abuse, sexual assault, or stalking or the details of an employee's or an employee's family member's medical condition as related to an employee's request to use earned sick and safe time under this section.

(f) Written statements by an employee may be written in the employee's first language and need not be notarized or in any particular format.

Sec. 5. Minnesota Statutes 2024, section 181.9447, subdivision 4, is amended to read:

Subd. 4. **Replacement worker.** For earned sick and safe time use that is unforeseeable, an employer may not require, as a condition of an employee using earned sick and safe time, that the employee seek or find a replacement worker to cover the hours the employee uses as earned sick and safe time. This subdivision does not prohibit an employee from voluntarily seeking or trading shifts with a replacement worker to cover the hours the employee uses as earned sick and safe time.

Sec. 6. Minnesota Statutes 2024, section 181.9448, subdivision 1, is amended to read:

Subdivision 1. **Effect on more generous sick and safe time policies.** (a) Nothing in sections 181.9445 to 181.9448 shall be construed to discourage employers from adopting or retaining earned sick and safe time policies that meet or exceed, and do not otherwise conflict with, the minimum standards and requirements provided in sections 181.9445 to 181.9448. ~~All paid time off and other paid leave made available to an employee by an employer in excess of the minimum amount required in section 181.9446 for absences from work due to personal illness or injury, but not including short-term or long-term disability or other salary continuation benefits, must meet or exceed the minimum standards and requirements provided in sections 181.9445 to 181.9448, except for section 181.9446. For paid leave accrued prior to January 1, 2024, for absences from work due to personal illness or injury, an employer may require an employee who uses such leave to follow the written notice and documentation requirements in the employer's applicable policy or applicable collective bargaining agreement as of December 31, 2023, in lieu of the requirements of section 181.9447, subdivisions 2 and 3, provided that an employer does not require an employee to use leave accrued on or after January 1, 2024, before using leave accrued prior to that date.~~

(b) Nothing in sections 181.9445 to 181.9448 shall be construed to limit the right of parties to a collective bargaining agreement to bargain and agree with respect to earned sick and safe time policies or to diminish the obligation of an employer to comply with any contract, collective bargaining agreement, or any employment benefit program or plan that meets or exceeds, and does not otherwise conflict with, the minimum standards and requirements provided in this section.

(c) Nothing in sections 181.9445 to 181.9448 shall be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for a greater amount, accrual, or use by employees of paid sick and safe time or that extends other protections to employees.

(d) Nothing in sections 181.9445 to 181.9448 shall be construed or applied so as to create any power or duty in conflict with federal law.

(e) Employers who provide earned sick and safe time to their employees under a paid time off policy or other paid leave policy that may be used for the same purposes and under the same conditions as earned sick and safe time, and that meets or exceeds, and does not otherwise conflict with, the minimum standards and requirements provided in sections 181.9445 to 181.9448 are not required to provide additional earned sick and safe time.

(f) The provisions of sections 181.9445 to 181.9448 may be waived by a collective bargaining agreement with a bona fide building and construction trades labor organization that has established itself as the collective bargaining representative for the affected building and construction industry employees, provided that for such waiver to be valid, it shall explicitly reference sections 181.9445 to 181.9448 and clearly and unambiguously waive application of those sections to such employees.

(g) The requirements of section 181.9447, subdivision 3, may be waived for paid leave made available to an employee by an employer for absences from work in excess of the minimum amount required in section 181.9446 through a collective bargaining agreement with a labor organization that has established itself as the collective bargaining representative for the employees, provided that for such waiver to be valid, it shall explicitly reference section 181.9447, subdivision 3, and clearly and unambiguously waive application of that subdivision to such employees.

(h) An individual provider, as defined in section 256B.0711, subdivision 1, paragraph (d), who provides services through a consumer support grant under section 256.476, consumer-directed community supports under section 256B.4911, or community first services and supports under section 256B.85, to a family member who is a participant, as defined in section 256B.0711, subdivision 1, paragraph (e), may individually waive the provisions of sections 181.9445 to 181.9448 for the remainder of the participant's service plan year, provided that the funds are returned to the participant's budget. Once an individual provider has waived the provisions of sections 181.9445 to 181.9448, they may not accrue earned sick and safe time until the start of the participant's next service plan year.

(i) Sections 181.9445 to 181.9448 do not prohibit an employer from establishing a policy whereby employees may donate unused accrued sick and safe time to another employee.

(j) Sections 181.9445 to 181.9448 do not prohibit an employer from advancing sick and safe time to an employee before accrual by the employee.

Sec. 7. Minnesota Statutes 2024, section 181.9448, is amended by adding a subdivision to read:

Subd. 4. **New business exemption.** Sections 181.9445 to 181.9448 shall not apply to an employer that is a new business during the first year of operation."

Senator Gruenhagen moved to amend S.F. No. 1832 as follows (A36):

Page 100, after line 3, insert:

"Sec. 6. Minnesota Statutes 2024, section 326B.106, subdivision 1, is amended to read:

Subdivision 1. **Adoption of code.** (a) Subject to paragraphs (c) and (d) and sections 326B.101 to 326B.194, the commissioner shall by rule and in consultation with the Construction Codes Advisory Council establish a code of standards for the construction, reconstruction, alteration, and repair of buildings, governing matters of structural materials, design and construction, fire protection, health, sanitation, and safety, including design and construction standards regarding heat loss control, illumination, and climate control. The code must also include duties and responsibilities for code administration, including procedures for administrative action, penalties, and suspension and revocation of certification. The code must conform insofar as practicable to model building codes generally accepted and in use throughout the United States, including a code for building conservation. In the preparation of the code, consideration must be given to the existing statewide specialty codes presently in use in the state. Model codes with necessary modifications and statewide specialty codes may be adopted by reference. The code must be based on the application of scientific principles, approved tests, and professional judgment. To the extent possible, the code must be adopted in terms of desired results instead of the means of achieving those results, avoiding wherever possible the incorporation of specifications of particular methods or materials. To that end the code must encourage the use of new methods and new materials. Except as otherwise provided in sections 326B.101 to 326B.194, the commissioner shall administer and enforce the provisions of those sections.

(b) The commissioner shall develop rules addressing the plan review fee assessed to similar buildings without significant modifications including provisions for use of building systems as specified in the industrial/modular program specified in section 326B.194. Additional plan review fees associated with similar plans must be based on costs commensurate with the direct and indirect costs of the service.

(c) Beginning with the 2018 edition of the model building codes and every six years thereafter, the commissioner shall review the new model building codes and adopt the model codes as amended for use in Minnesota, within two years of the published edition date. The commissioner may adopt amendments to the building codes prior to the adoption of the new building codes to advance construction methods, technology, or materials, or, where necessary to protect the health, safety, and welfare of the public, or to improve the efficiency or the use of a building.

(d) Notwithstanding paragraph (c), the commissioner shall act on each new model residential energy code and the new model commercial energy code in accordance with federal law for which the United States Department of Energy has issued an affirmative determination in compliance with United States Code, title 42, section 6833. The commissioner may adopt amendments prior to adoption of the new energy codes, as amended for use in Minnesota, to advance construction methods, technology, or materials, or, where necessary to protect the health, safety, and welfare of the public, or to improve the efficiency or use of a building.

~~(e) Beginning in 2024, the commissioner shall act on the new model commercial energy code by adopting each new published edition of ASHRAE 90.1 or a more efficient standard. The commercial energy code in effect in 2036 and thereafter must achieve an 80 percent reduction in annual net energy consumption or greater, using the ASHRAE 90.1-2004 as a baseline. The commissioner shall adopt commercial energy codes from 2024 to 2036 that incrementally move toward achieving the 80 percent reduction in annual net energy consumption. By January 15 of the year following each new code adoption, the commissioner shall make a report on progress under this section to the legislative committees with jurisdiction over the energy code.~~

~~(f) (e) Nothing in this section shall be interpreted to limit the ability of a public utility to offer code support programs, or to claim energy savings resulting from such programs, through its energy conservation and optimization plans approved by the commissioner of commerce under section 216B.241 or an energy conservation and optimization plan filed by a consumer-owned utility under section 216B.2403.~~

~~(g) Beginning in 2026, the commissioner shall act on the new model residential energy code by adopting each new published edition of the International Energy Conservation Code or a more efficient standard. The residential energy code in effect in 2038 and thereafter must achieve a 70 percent reduction in annual net energy consumption or greater, using the 2006 International Energy Conservation Code State Level Residential Codes Energy Use Index for Minnesota, as published by the United States Department of Energy's Building Energy Codes Program, as a baseline. The commissioner shall adopt residential energy codes from 2026 to 2038 that incrementally move toward achieving the 70 percent reduction in annual net energy consumption. By January 15 of the year following each new code adoption, the commissioner shall submit a report on progress under this section to the legislative committees with jurisdiction over the energy code."~~

"ARTICLE 6

ENVIRONMENTAL PERMITTING REFORM

Section 1. Minnesota Statutes 2024, section 115.542, is amended to read:

115.542 NOTICE REQUIREMENTS FOR PUBLICLY OWNED WASTEWATER TREATMENT FACILITIES.

Subdivision 1. **Definitions.** For the purpose of this section, the following terms have the meanings given:

(1) "permit" means a national pollutant discharge elimination system (NPDES) permit or state disposal system (SDS) permit; and

(2) "permit applicant" means a person or entity submitting an application for a new permit or renewal, modification, or revocation of an existing permit for a publicly owned wastewater treatment facility.

Subd. 2. **Applicability.** This section applies to all draft permits and permits for publicly owned wastewater treatment facilities for which the commissioner of the Pollution Control Agency makes a preliminary determination whether to issue or deny.

Subd. 3. **Prepublic notice review requirements.** Unless waived by the permit applicant, the commissioner of the Pollution Control Agency must provide a permit applicant with a copy of the draft permit and any fact sheets required by agency rules at least 30 days before the distribution and public notice of the permit application and preliminary determination.

Subd. 4. **Permitting efficiency Public notice requirements.** The commissioner must prepare and issue a public notice of a completed application and the commissioner's preliminary determination as to whether the permit should be issued or denied. The public comment period must be at least 60 days for permit applications under this section but may be reduced to 30 days if:

(1) a request for the reduction is made by the permit applicant; and

(2) the commissioner approves the request based on consideration of public or Tribal interest in the permit action.

Subd. 5. **Permitting efficiency.** Notwithstanding section 116.03, it is the goal of the state that tier 2 permits for publicly owned wastewater treatment facilities be issued or denied within 210 days following submission of a permit application.

Sec. 2. Minnesota Statutes 2024, section 116.03, subdivision 2b, is amended to read:

Subd. 2b. **Permitting efficiency.** (a) It is the goal of the state that environmental and resource management permits be issued or denied within 90 days for tier 1 permits or 150 days for tier 2 permits following submission of a permit application. The commissioner ~~of the Pollution Control Agency shall~~ must establish management systems designed to achieve the goal. For the purposes

of this section, "tier 1 permits" are permits that do not require individualized actions or public comment periods, and "tier 2 permits" are permits that require individualized actions or public comment periods. Goals established in this paragraph do not apply to permit applications required due to agency enforcement actions.

(b) The commissioner ~~shall~~ must prepare an annual permitting efficiency report that includes statistics on meeting the tier 2 goal in paragraph (a) and the criteria for tier 2 by permit categories. The report must also provide information on consultants regarding achievement of the performance standards under paragraph (e), clauses (1) to (4). The report is due must be submitted to the governor and to the chairs and ranking minority members of the house of representatives and senate committees having jurisdiction over environment policy and finance by October 1 August 1 each year and must be posted on the agency's website. Each report must include:

(1) for each permit applications application that have has not met the goal, the report must state the reasons for not meeting the goal. In stating the reasons for not meeting the goal, the commissioner shall separately identify delays an explanation of whether the delay was caused by the responsiveness of the proposer, lack of staff, scientific or technical disagreements, or the level of public engagement. The report must specify;

(2) for each permit that has not met the goal, the number of days from initial submission of the application to the day of determination that the application is complete. The report must aggregate;

(3) a summary of the data for the year reporting period and assess an assessment of whether program or system changes are necessary to achieve the tier 2 goal. The report must be posted on the agency's website and submitted to the governor and the chairs and ranking minority members of the house of representatives and senate committees having jurisdiction over environment policy and finance. in paragraph (a);

(4) a statement of the number of tier 2 permits completed within the reporting period and, immediately following in parentheses, a statement of the percentage of total applications received for that tier 2 permit category that the number represents, stated separately for industrial and municipal permits; and

(5) for permits that did not meet the goal due to lack of staff, a combined estimate of the aggregate staff resources that would have been necessary for all affected permits to meet the goal.

(c) The commissioner ~~shall~~ must allow electronic submission of environmental review and permit documents to the agency.

(d) Within 30 business days of application for a permit subject to paragraph (a), the commissioner ~~of the Pollution Control Agency shall~~ must notify the permit applicant, in writing, ~~whether the application is complete or incomplete. If the commissioner determines that an application is incomplete, the notice to the applicant must enumerate of all deficiencies, while citing specific provisions of the applicable rules and statutes, and must advise the applicant on how the deficiencies can be remedied. The applicant shall have five business days to remedy all identified deficiencies before the commissioner determines that the application is complete or incomplete. If the commissioner determines that the application is complete, the notice commissioner must confirm the application's tier 1 or tier 2 permit status. If the commissioner believes that a complete application for a tier 2 construction permit cannot be issued within the 150-day goal, the commissioner must~~

provide notice to the applicant with the commissioner's notice that the application is complete and, upon request of the applicant, provide the permit applicant with a schedule estimating when the agency will begin drafting the permit and issue the public notice of the draft permit. This paragraph does not apply to an application for a permit that is subject to a grant or loan agreement under chapter 446A.

(e) The commissioner must credential consultants who meet the requirements of this paragraph and must provide a logo or similar indicator with the credential that can be used by a consultant in marketing their services. For purposes of this section, "consultant" means a third-party professional representing a facility owner or operator to prepare or assist in preparing a permit application or other similar documentation required by the commissioner for authorizations under chapters 115 to 116. A consultant is credentialed on January 1 each odd-numbered year if, in the preceding two years, the consultant:

(1) submitted permit applications deemed complete under paragraph (d) at a rate of at least 80 percent;

(2) when applicable, met agreed-upon deadlines as part of a plan designed to increase the coordination and efficiency of regulatory activities, such as a plan described under section 116.035;

(3) did not represent an owner or operator to prepare or assist in preparing a permit application or other similar documentation when the owner or operator received a citation under section 116.073, subdivision 1, paragraph (b); and

(4) was not found in violation of Minnesota Rules, part 7000.0300, relating to duty of candor.

(f) If, after notifying the permit applicant that the application is complete, the commissioner determines that additional information is needed, the commissioner must notify the applicant. Upon notice under this paragraph, counting days toward the 90- or 150-day goal described in paragraph (a) stops until the applicant has responded with the additional information. Once the applicant has responded with all the additional information required, counting resumes from where it stopped. The applicant has 30 business days to provide the additional information to the commissioner, but the commissioner may extend the time upon the applicant's request.

(g) For purposes of this subdivision, "permit professional" means an individual not employed by the Pollution Control Agency who:

(1) has a professional license issued by the state of Minnesota in the subject area of the permit;

(2) has at least ten years of experience in the subject area of the permit; and

(3) abides by the duty of candor applicable to employees of the Pollution Control Agency under agency rules and complies with all applicable requirements under chapter 326.

(h) Upon the agency's request, an applicant relying on a permit professional must participate in a meeting with the agency before submitting an application:

(1) at least two weeks prior to the preapplication meeting, the applicant must submit at least the following:

(i) project description, including, but not limited to, scope of work, primary emissions points, discharge outfalls, and water intake points;

(ii) location of the project, including county, municipality, and location on the site;

(iii) business schedule for project completion; and

(iv) other information requested by the agency at least four weeks prior to the scheduled meeting; and

(2) during the preapplication meeting, the agency ~~shall~~ must provide for the applicant at least the following:

(i) an overview of the permit review program;

(ii) a determination of which specific application or applications will be necessary to complete the project;

(iii) a statement notifying the applicant if the specific permit being sought requires a mandatory public hearing or comment period;

(iv) a review of the timetable established in the permit review program for the specific permit being sought; and

(v) a determination of what information must be included in the application, including a description of any required modeling or testing.

~~(g)~~ (i) The applicant may select a permit professional to undertake the preparation of the permit application and draft permit.

~~(h)~~ (j) If a preapplication meeting was held, the agency ~~shall~~ must, within seven business days of receipt of an application, notify the applicant and submitting permit professional that the application is complete or is denied, specifying the deficiencies of the application.

~~(i)~~ (k) Upon receipt of notice that the application is complete, the permit professional ~~shall~~ must submit to the agency a timetable for submitting a draft permit. The permit professional ~~shall~~ must submit a draft permit on or before the date provided in the timetable. Within 60 days after the close of the public comment period, the commissioner ~~shall~~ must notify the applicant whether the permit can be issued.

~~(j)~~ (l) Nothing in this section shall be construed to modify:

(1) any requirement of law that is necessary to retain federal delegation to or assumption by the state; or

(2) the authority to implement a federal law or program.

~~(k)~~ (m) The permit application and draft permit ~~shall~~ must identify or include as an appendix all studies and other sources of information used to substantiate the analysis contained in the permit application and draft permit. The commissioner ~~shall~~ must request additional studies, if needed, and

the permit applicant ~~shall~~ must submit all additional studies and information necessary for the commissioner to perform the commissioner's responsibility to review, modify, and determine the completeness of the application and approve the draft permit.

Sec. 3. Minnesota Statutes 2024, section 116.07, subdivision 4a, is amended to read:

Subd. 4a. **Permits.** (a) The Pollution Control Agency may issue, continue in effect or deny permits, under such conditions as it may prescribe for the prevention of pollution, for the emission of air contaminants, or for the installation or operation of any emission facility, air contaminant treatment facility, treatment facility, potential air contaminant storage facility, or storage facility, or any part thereof, or for the sources or emissions of noise pollution. The Pollution Control Agency may issue separate permits for constructing a facility described in this paragraph and for its operation, except for a facility required to complete a mandatory environmental impact statement under Minnesota Rules, part 4410.4400. The Pollution Control Agency must prioritize these permits in a manner that minimizes the time required to construct and begin operation of the permitted facility while complying with state and federal requirements.

(b) The Pollution Control Agency may also issue, continue in effect or deny permits, under such conditions as it may prescribe for the prevention of pollution, for the storage, collection, transportation, processing, or disposal of waste, or for the installation or operation of any system or facility, or any part thereof, related to the storage, collection, transportation, processing, or disposal of waste.

(c) The agency may not issue a permit to a facility without analyzing and considering the cumulative levels and effects of past and current environmental pollution from all sources on the environment and residents of the geographic area within which the facility's emissions are likely to be deposited, provided that the facility is located in a community in a city of the first class in Hennepin County that meets all of the following conditions:

(1) is within a half mile of a site designated by the federal government as an EPA superfund site due to residential arsenic contamination;

(2) a majority of the population are low-income persons of color and American Indians;

(3) a disproportionate percent of the children have childhood lead poisoning, asthma, or other environmentally related health problems;

(4) is located in a city that has experienced numerous air quality alert days of dangerous air quality for sensitive populations between February 2007 and February 2008; and

(5) is located near the junctions of several heavily trafficked state and county highways and two one-way streets which carry both truck and auto traffic.

(d) The Pollution Control Agency may revoke or modify any permit issued under this subdivision and section 116.081 whenever it is necessary, in the opinion of the agency, to prevent or abate pollution.

(e) The Pollution Control Agency has the authority for approval over the siting, expansion, or operation of a solid waste facility with regard to environmental issues. However, the agency's

issuance of a permit does not release the permittee from any liability, penalty, or duty imposed by any applicable county ordinances. Nothing in this chapter precludes, or shall be construed to preclude, a county from enforcing land use controls, regulations, and ordinances existing at the time of the permit application and adopted pursuant to Minnesota Statutes 2020, sections 366.10 to 366.181, or sections 394.21 to 394.37, or 462.351 to 462.365, with regard to the siting, expansion, or operation of a solid waste facility.

(f) Except as prohibited by federal law, a person may commence construction, reconstruction, replacement, or modification of any facility prior to the issuance of a construction permit by the agency.

(g) For the purposes of this subdivision, the Pollution Control Agency may require the owners and operators of any emission facility, air containment treatment facility, treatment facility, potential air containment storage facility, or storage facility, or any part thereof, to conduct air dispersion modeling of air contaminants.

Sec. 4. Minnesota Statutes 2024, section 116.07, subdivision 4d, is amended to read:

Subd. 4d. **Permit fees.** (a) The agency may collect permit fees in amounts not greater than those necessary to cover the reasonable costs of developing, reviewing, and acting upon applications for agency permits and implementing and enforcing the conditions of the permits pursuant to agency rules. Permit fees shall not include the costs of litigation. The fee schedule must reflect reasonable and routine direct and indirect costs associated with permitting, implementation, and enforcement. The agency may impose an additional enforcement fee to be collected for a period of up to two years to cover the reasonable costs of implementing and enforcing the conditions of a permit under the rules of the agency. Any money collected under this paragraph shall be deposited in the environmental fund.

(b) Notwithstanding paragraph (a), the agency shall collect an annual fee from the owner or operator of all stationary sources, emission facilities, emissions units, air contaminant treatment facilities, treatment facilities, potential air contaminant storage facilities, or storage facilities subject to a notification, permit, or license requirement under this chapter, subchapters I and V of the federal Clean Air Act, United States Code, title 42, section 7401 et seq., or rules adopted thereunder. The annual fee shall be used to pay for all direct and indirect reasonable costs, including legal costs, required to develop and administer the notification, permit, or license program requirements of this chapter, subchapters I and V of the federal Clean Air Act, United States Code, title 42, section 7401 et seq., or rules adopted thereunder. Those costs include the reasonable costs of reviewing and acting upon an application for a permit; implementing and enforcing statutes, rules, and the terms and conditions of a permit; emissions, ambient, and deposition monitoring; preparing generally applicable regulations; responding to federal guidance; modeling, analyses, and demonstrations; preparing inventories and tracking emissions; and providing information to the public about these activities.

(c) The agency shall set fees that:

(1) will result in the collection, in the aggregate, from the sources listed in paragraph (b), of an amount not less than \$25 per ton of each volatile organic compound; pollutant regulated under United States Code, title 42, section 7411 or 7412 (section 111 or 112 of the federal Clean Air Act);

and each pollutant, except carbon monoxide, for which a national primary ambient air quality standard has been promulgated;

(2) may result in the collection, in the aggregate, from the sources listed in paragraph (b), of an amount not less than \$25 per ton of each pollutant not listed in clause (1) that is regulated under this chapter or air quality rules adopted under this chapter; and

(3) shall collect, in the aggregate, from the sources listed in paragraph (b), the amount needed to match grant funds received by the state under United States Code, title 42, section 7405 (section 105 of the federal Clean Air Act).

The agency must not include in the calculation of the aggregate amount to be collected under clauses (1) and (2) any amount in excess of 4,000 tons per year of each air pollutant from a source. The increase in air permit fees to match federal grant funds shall be a surcharge on existing fees. The commissioner may not collect the surcharge after the grant funds become unavailable. In addition, the commissioner shall use nonfee funds to the extent practical to match the grant funds so that the fee surcharge is minimized.

(d) To cover the reasonable costs described in paragraph (b), the agency shall provide in the rules promulgated under paragraph (c) for an increase in the fee collected in each year by the percentage, if any, by which the Consumer Price Index for the most recent calendar year ending before the beginning of the year the fee is collected exceeds the Consumer Price Index for the calendar year 1989. For purposes of this paragraph the Consumer Price Index for any calendar year is the average of the Consumer Price Index for all-urban consumers published by the United States Department of Labor, as of the close of the 12-month period ending on August 31 of each calendar year. The revision of the Consumer Price Index that is most consistent with the Consumer Price Index for calendar year 1989 shall be used.

(e) Any money collected under paragraphs (b) to (d) must be deposited in the environmental fund and must be used solely for the activities listed in paragraph (b).

(f) Permit applicants who wish to construct, reconstruct, or modify a project may ~~offer request expedited permitting under this paragraph. An applicant requesting expedited permitting under this paragraph must agree to reimburse the agency for the costs of staff time or consultant services needed to expedite the preapplication process and permit development process through the final decision on the permit, including the analysis of environmental review documents. The reimbursement shall be~~ is in addition to permit application fees imposed by law. ~~When the agency determines that it needs additional resources to develop the permit application in an expedited manner, and that expediting the development is consistent with permitting program priorities, the agency may accept the reimbursement.~~ The commissioner must give the applicant an estimate of the timeline and costs to be incurred by the commissioner. The estimate must include a brief description of the tasks to be performed, a schedule for completing the tasks, and the estimated cost for each task. If the applicant agrees to the estimated timeline and costs negotiated with the commissioner, the applicant and the commissioner must enter into a written agreement detailing the estimated costs for the expedited permit decision-making process to be incurred by the agency to proceed accordingly. The agreement must ~~also~~ identify staff anticipated to be assigned to the project. The agreement may provide that, if permitting is completed ahead of the schedule set forth in the written agreement, the commissioner may retain any fees that would have been due if the permitting had taken the time contemplated in

the written agreement. Fees retained by the commissioner under this paragraph are appropriated to the commissioner for administering the commissioner's permitting duties. The commissioner must not issue a permit until the applicant has paid all fees in full. The commissioner must refund any unobligated balance of fees paid. Reimbursements accepted by the agency are appropriated to the agency for the purpose of developing the permit or analyzing environmental review documents. Reimbursement by a permit applicant shall precede and not be contingent upon issuance of a permit; shall not affect the agency's decision on whether to issue or deny a permit, what conditions are included in a permit, or the application of state and federal statutes and rules governing permit determinations; and shall not affect final decisions regarding environmental review.

(g) The fees under this subdivision are exempt from section 16A.1285.

Sec. 5. Minnesota Statutes 2024, section 116D.04, subdivision 2a, is amended to read:

Subd. 2a. **When prepared.** (a) Where there is potential for significant environmental effects resulting from any major governmental action, the action must be preceded by a detailed environmental impact statement prepared by the responsible governmental unit. The environmental impact statement must be an analytical rather than an encyclopedic document that describes the proposed action in detail, analyzes its significant environmental impacts, discusses appropriate alternatives to the proposed action and their impacts, and explores methods by which adverse environmental impacts of an action could be mitigated. The environmental impact statement must also analyze those economic, employment, and sociological effects that cannot be avoided should the action be implemented. To ensure its use in the decision-making process, the environmental impact statement must be prepared as early as practical in the formulation of an action.

(b) The board shall by rule establish categories of actions for which environmental impact statements and for which environmental assessment worksheets must be prepared as well as categories of actions for which no environmental review is required under this section. A mandatory environmental assessment worksheet is not required for the expansion of an ethanol plant, as defined in section 41A.09, subdivision 2a, paragraph (b), or the conversion of an ethanol plant to a biobutanol facility or the expansion of a biobutanol facility as defined in section 41A.15, subdivision 2d, based on the capacity of the expanded or converted facility to produce alcohol fuel, but must be required if the ethanol plant or biobutanol facility meets or exceeds thresholds of other categories of actions for which environmental assessment worksheets must be prepared. The responsible governmental unit for an ethanol plant or biobutanol facility project for which an environmental assessment worksheet is prepared is the state agency with the greatest responsibility for supervising or approving the project as a whole.

(c) A mandatory environmental impact statement is not required for a facility or plant located outside the seven-county metropolitan area that produces less than 125,000,000 gallons of ethanol, biobutanol, or cellulosic biofuel annually, or produces less than 400,000 tons of chemicals annually, if the facility or plant is: an ethanol plant, as defined in section 41A.09, subdivision 2a, paragraph (b); a biobutanol facility, as defined in section 41A.15, subdivision 2d; or a cellulosic biofuel facility. A facility or plant that only uses a cellulosic feedstock to produce chemical products for use by another facility as a feedstock is not considered a fuel conversion facility as used in rules adopted under this chapter.

(d) The responsible governmental unit shall promptly publish notice of the completion of an environmental assessment worksheet by publishing the notice in at least one newspaper of general circulation in the geographic area where the project is proposed, by posting the notice on a website that has been designated as the official publication site for publication of proceedings, public notices, and summaries of a political subdivision in which the project is proposed, or in any other manner determined by the board and shall provide copies of the environmental assessment worksheet to the board and its member agencies. Comments on the need for an environmental impact statement may be submitted to the responsible governmental unit during a 30-day period following publication of the notice that an environmental assessment worksheet has been completed. The responsible governmental unit may extend the 30-day comment period for an additional 30 days one time. Further extensions of the comment period may not be made unless approved by the project's proposer. The responsible governmental unit's decision on the need for an environmental impact statement must be based on the environmental assessment worksheet and the comments received during the comment period, and must be made within 15 days after the close of the comment period. The board's chair may extend the 15-day period by not more than 15 additional days upon the request of the responsible governmental unit.

(e) An environmental assessment worksheet must also be prepared for a proposed action whenever material evidence accompanying a petition ~~by not less than 100 individuals who reside or own property in the state~~, submitted before the proposed project has received final approval by the appropriate governmental units, demonstrates that, because of the nature or location of a proposed action, there may be potential for significant environmental effects. Petitions may be submitted by:

(1) a Minnesota Tribal government as defined under section 10.65, subdivision 2; or

(2) not less than 100 individuals who reside or own property in the state.

(f) Petitions requesting the preparation of an environmental assessment worksheet under paragraph (e) must be submitted to the board. The chair of the board or designee shall determine the appropriate responsible governmental unit and forward the petition to it. A decision on the need for an environmental assessment worksheet must be made by the responsible governmental unit within 15 days after the petition is received by the responsible governmental unit. The board's chair or designee may extend the 15-day period by not more than 15 additional days upon request of the responsible governmental unit.

~~(f)~~ (g) Except in an environmentally sensitive location where Minnesota Rules, part 4410.4300, subpart 29, item B, applies, the proposed action is exempt from environmental review under this chapter and rules of the board, if:

(1) the proposed action is:

(i) an animal feedlot facility with a capacity of less than 1,000 animal units; or

(ii) an expansion of an existing animal feedlot facility with a total cumulative capacity of less than 1,000 animal units;

(2) the application for the animal feedlot facility includes a written commitment by the proposer to design, construct, and operate the facility in full compliance with Pollution Control Agency feedlot rules; and

(3) the county board holds a public meeting for citizen input at least ten business days before the Pollution Control Agency or county issuing a feedlot permit for the animal feedlot facility unless another public meeting for citizen input has been held with regard to the feedlot facility to be permitted. The exemption in this paragraph is in addition to other exemptions provided under other law and rules of the board.

~~(g)~~ (h) The board may, before final approval of a proposed project, require preparation of an environmental assessment worksheet by a responsible governmental unit selected by the board for any action where environmental review under this section has not been specifically provided for by rule or otherwise initiated.

~~(h)~~ (i) An early and open process must be used to limit the scope of the environmental impact statement to a discussion of those impacts that, because of the nature or location of the project, have the potential for significant environmental effects. The same process must be used to determine the form, content, and level of detail of the statement as well as the alternatives that are appropriate for consideration in the statement. In addition, the permits that will be required for the proposed action must be identified during the scoping process. Further, the process must identify those permits for which information will be developed concurrently with the environmental impact statement. The board shall provide in its rules for the expeditious completion of the scoping process. The determinations reached in the process must be incorporated into the order requiring the preparation of an environmental impact statement.

~~(i)~~ (j) The responsible governmental unit shall, to the extent practicable, avoid duplication and ensure coordination between state and federal environmental review and between environmental review and environmental permitting. Whenever practical, information needed by a governmental unit for making final decisions on permits or other actions required for a proposed project must be developed in conjunction with the preparation of an environmental impact statement. When an environmental impact statement is prepared for a project requiring multiple permits for which two or more agencies' decision processes include either mandatory or discretionary hearings before a hearing officer before the agencies' decision on the permit, the agencies may, notwithstanding any law or rule to the contrary, conduct the hearings in a single consolidated hearing process if requested by the proposer. All agencies having jurisdiction over a permit that is included in the consolidated hearing shall participate. The responsible governmental unit shall establish appropriate procedures for the consolidated hearing process, including procedures to ensure that the consolidated hearing process is consistent with the applicable requirements for each permit regarding the rights and duties of parties to the hearing, and shall use the earliest applicable hearing procedure to initiate the hearing. All agencies having jurisdiction over a permit identified in the draft environmental assessment worksheet scoping document must begin reviewing any permit application upon publication of the notice of preparation of the environmental impact statement.

~~(j)~~ (k) An environmental impact statement must be prepared and its adequacy determined within 280 days after notice of its preparation unless the time is extended by consent of the parties or by the governor for good cause. The responsible governmental unit shall determine the adequacy of an environmental impact statement, unless within 60 days after notice is published that an environmental impact statement will be prepared, the board chooses to determine the adequacy of an environmental impact statement. If an environmental impact statement is found to be inadequate, the responsible governmental unit has 60 days to prepare an adequate environmental impact statement.

~~(h)~~ (1) The proposer of a specific action may include in the information submitted to the responsible governmental unit a preliminary draft environmental impact statement under this section on that action for review, modification, and determination of completeness and adequacy by the responsible governmental unit. A preliminary draft environmental impact statement prepared by the project proposer and submitted to the responsible governmental unit must identify or include as an appendix all studies and other sources of information used to substantiate the analysis contained in the preliminary draft environmental impact statement. The responsible governmental unit shall require additional studies, if needed, and obtain from the project proposer all additional studies and information necessary for the responsible governmental unit to perform its responsibility to review, modify, and determine the completeness and adequacy of the environmental impact statement.

Sec. 6. Minnesota Statutes 2024, section 116D.04, subdivision 2b, is amended to read:

Subd. 2b. **Project prerequisites.** (a) If an environmental assessment worksheet or an environmental impact statement is required for a governmental action under subdivision 2a, a project may not be started and a final governmental decision may not be made to grant a permit, approve a project, or begin a project, until:

- (1) a petition for an environmental assessment worksheet is dismissed;
- (2) a negative declaration has been issued on the need for an environmental impact statement;
- (3) the environmental impact statement has been determined adequate; or
- (4) a variance has been granted from making an environmental impact statement by the environmental quality board.

(b) Nothing in this subdivision precludes a local unit of government from beginning to review a feedlot permit application for a feedlot subject to environmental review under this chapter.

Sec. 7. Minnesota Statutes 2024, section 116D.04, subdivision 5a, is amended to read:

Subd. 5a. **Rules.** The board shall, by January 1, 1981, promulgate rules in conformity with this chapter and the provisions of chapter 15, establishing:

- (1) the governmental unit which shall be responsible for environmental review of a proposed action;
- (2) the form and content of environmental assessment worksheets;
- (3) a scoping process in conformance with subdivision 2a, paragraph ~~(h)~~ (i);
- (4) a procedure for identifying during the scoping process the permits necessary for a proposed action and a process for coordinating review of appropriate permits with the preparation of the environmental impact statement;
- (5) a standard format for environmental impact statements;
- (6) standards for determining the alternatives to be discussed in an environmental impact statement;

(7) alternative forms of environmental review which are acceptable pursuant to subdivision 4a;

(8) a model ordinance which may be adopted and implemented by local governmental units in lieu of the environmental impact statement process required by this section, providing for an alternative form of environmental review where an action does not require a state agency permit and is consistent with an applicable comprehensive plan. The model ordinance shall provide for adequate consideration of appropriate alternatives, and shall ensure that decisions are made in accordance with the policies and purposes of Laws 1980, chapter 447;

(9) procedures to reduce paperwork and delay through intergovernmental cooperation and the elimination of unnecessary duplication of environmental reviews;

(10) procedures for expediting the selection of consultants by the governmental unit responsible for the preparation of an environmental impact statement; and

(11) any additional rules which are reasonably necessary to carry out the requirements of this section.

Sec. 8. Minnesota Statutes 2024, section 116D.045, subdivision 1, is amended to read:

Subdivision 1. **Assessment.** The board must by rule adopt procedures to:

(1) assess the proposer of a specific action for the responsible governmental unit's reasonable costs of preparing, reviewing, and distributing the environmental impact statement. The costs must be determined by the responsible governmental unit according to the rules adopted by the board; and

(2) authorize a responsible governmental unit to allow a proposer of a specific action to prepare a draft environmental impact statement according to section 116D.04, subdivision 2a, paragraph ~~(k)~~ (l).

Sec. 9. SCOPING ENVIRONMENTAL ASSESSMENT WORKSHEET NOT REQUIRED FOR PROJECTS THAT REQUIRE A MANDATORY ENVIRONMENTAL IMPACT STATEMENT.

(a) The Environmental Quality Board must amend Minnesota Rules, part 4410.2100, as follows:

(1) to provide that an environmental assessment worksheet does not need to be prepared for a project that falls within a mandatory environmental impact statement category under Minnesota Rules, part 4410.4400, or other applicable law; and

(2) to provide that a scoping process undertaken under Minnesota Rules, part 4410.2100, must be completed no later than 280 days after the process begins.

(b) The board may use the good-cause exemption under Minnesota Statutes, section 14.388, subdivision 1, clause (3), to adopt rules under this section, and Minnesota Statutes, section 14.386, does not apply except as provided under Minnesota Statutes, section 14.388.

Sec. 10. **STATE IMPLEMENTATION PLAN REVISIONS.**

The commissioner of the Pollution Control Agency must seek approval from the federal Environmental Protection Agency for revisions to the state's federal Clean Air Act state implementation plan if changes are needed to reflect the requirements of Minnesota Statutes, section 116.07, subdivision 4a, as amended by this act.

Sec. 11. REPORT ON USE OF AUTHORITY TO EXTEND TIMELINE FOR CERTAIN AGENCY ACTIONS.

By February 15, 2028, the Board of Water and Soil Resources must report to the chairs and ranking minority members of the legislative committees with jurisdiction over environment and natural resources policy on the number of extensions noticed under Minnesota Statutes, section 15.99, subdivision 3, paragraph (f), that are made for any decision under Minnesota Rules, chapter 8420, between January 1, 2026, and December 31, 2027. A local government unit must supply the board with information necessary to prepare the report required by this section."

Amend the title accordingly

Pursuant to Rule 7.4, Senator Klein questioned whether the Green (A58) amendment was in order. The President ruled the amendment was in order.

The question was taken on the adoption of the Green (A58) amendment.

The roll was called, and there were yeas 34 and nays 32, as follows:

Those who voted in the affirmative were:

Abeler	Drazkowski	Howe	Lieske	Rarick
Anderson	Duckworth	Jasinski	Limmer	Rasmusson
Bahr	Farnsworth	Johnson	Lucero	Utke
Coleman	Green	Koran	Mathews	Weber
Dahms	Gruenhagen	Kreun	Miller	Wesenberg
Dornink	Hauschild	Kupec	Nelson	Westrom
Draheim	Housley	Lang	Pratt	

Pursuant to Rule 40, Senator Jasinski cast the affirmative vote on behalf of the following Senators: Abeler, Anderson, Coleman, Duckworth, Koran, Lang, Lieske, and Nelson.

Those who voted in the negative were:
